"CAN I CRASH AT YOUR PLACE - JUST FOR A BIT??"

YOU can make a difference in pets' lives through the Miss Kitty's foster program. Fosters are urgently needed!

Fostering is one of the most fun, rewarding and effective ways to help us save the lives of our feline friends in need. It doesn't matter if your home is tiny or massive or if you live alone or have animals of your own, you can still become a foster parent and SAVE LIVES! It is our experience that kittens who are socialized in a foster home are far more likely to thrive in their forever home. There are so many animals that need us that would have otherwise lost their lives..... and that is why we are always looking for new fosters.

Even if you could help us for a week or two at a time -just to relieve a full-time foster who needs to get away for whatever reason -YOU WOULD BE SO APPRECIATED!! Our kittens need your help.
